---

The Stewards, having received a report from some Drivers, decided to write a report to all the drivers

During the course of the entire Event, the Race Direction analyzed the driving behavior of all the drivers and judged some racing moves as too aggressive. In detail, drivers are allowed to make some defensive moves, like taking a slight advantage in terms of track space, but not to push a driver out of the track and make contact with them. Also, it is prohibited to “steer under braking” during a defensive move and closing the door to the driver behind, forcing him out of track.

On the other hand, the Race Direction would like to praise some very fair play drives, mainly happening in the front rows of the Races.

Considering the situation and as it was the first Event for this championship, no penalties, warning and reprimands have been issued to any driver.
